

Eva Grayzel, a nationally recognized master storyteller and expert on interactive storytelling techniques with 25 years' experience, enriches learning through the power of story. Eva created unique interactive storytelling techniques which she uses in performance and teaches educators nationwide. A late-stage oral cancer diagnosis almost stole her ability to continue working. Her survival story is now an integral part of her repertoire. Eva is the author of two children's books, *Mr. C Plays Hide & Seek* and *Mr. C the Globetrotter*. She founded the Six-Step Screening™ oral cancer awareness campaign. Eva's signature stories are recorded on the CD, *A Story A Day*.

“Eva weaves sound pedagogical principles into her art. Her approach is extremely engaging.”
